

Why should we measure personality in pets?

How could we do this?

If you would like to know more, then why not come along to this seminar to find out!

Invite to PhD Transfer seminar

Clare Ellis
Animal Behaviour and Welfare

Developing a tool for temperament and personality assessment in rabbits.

Date: Friday 20th May

Time: 9am (for 9.15am start)

Location: M1, HE building, Main Site, Moulton College, Pitsford Road, Moulton NN3 7RR (less than 10 minute drive from Park Campus)

Please can anyone interested in attending email me @ clare.ellis@moulton.ac.uk by 5pm on Thursday 19th May and please be aware that visitor passes will need to be worn and can be obtained from the reception building (just in front of the HE building).
